

Bolt-On VS Built-In Intake Management Solutions

The Evolution of Intake Management

From Fragmented to Unified: The Journey of Intake Management

The Past:
Fragmented Processes

- Isolated from core S2P systems 
- Data silos and integration challenges 
- Inconsistent user experience 
- Higher maintenance and update costs 
- Limited scalability 

The Future:
Unified Efficiency

- Seamlessly integrated with S2P suite 
- Unified data flow and analytics 
- Consistent user experience 
- Lower total cost of ownership 
- Scalable and future-proof 

The Impact of Built-In Solutions
